Unfortunately there does not seem to be sufficient support for this proposed development so it is unlikely to go forward at present.

This set of pages documents the proposed changes to existing database tables and the addition of new tables.

There will undoubtedly be changes and refinements to this once the development gets under way.

Table of contents for section:
- Project Management - Existing table tiki_user_tasks
- Project Management - Existing table tiki_user_tasks_history
- Project Management - New table tiki_projects
- Project Management - New table tiki_projects_history
- Project Management - New table tiki_projects_tasklinks
- Project Management - New table tiki_projects_resource_types
- Project Management - New table tiki_projects_resource_allocation
- Project Management - New table tiki_projects_team_members

Table of contents for main document:
- Project Management Requirements Introduction
- Projects 1.0 Requirements
- Project Management - Tracker Integration
- Project Management - DB Table design
