

Collaborative Image manipulation

Goal:

~~Find an HTML5-based image collaboration open source project that we can integrate in Tiki, like we do for jQuery, CKeditor, etc.~~ Done. We added SVG-Edit to become Tiki [Draw](#).

Related feature request:

- [Image Manipulation](#) (image cropping, color changing, watermark, etc.)
- [can not embed svg images in wiki page](#)
- [Animations](#)
- [Visual Mapping](#)
- [Visualization](#)
- [WebGL](#)

Features

- To be able to add an image (jpg, png) and draw over it.
- Version history (like wiki pages, files, trackers and spreadsheets)

HTML5 / SVG
