

Copyright

The Copyright Management System (or ©MS) is a way of licensing your content, typically under an open or free content license, such as the Gnu Free Documentation License or the Open Game License. By switching this feature on you can define a content license for all your wiki content, associate copyright notices with individual pages and even display a full license for printing.

doc:[Copyright](#)

Todo:

Investigate <http://wiki.creativecommons.org/LicenseChooser.js> as a possible replacement for the current Copyright feature. Possibility even a more general feature to have custom meta-data on each wiki page & revision.
