```

Notes:

openid/php-openid update to 2.3 requires php-tmp extension missing from here, so skipped

smarty/smarty > v3.1.21 still not compatible with tiki, hopefully 3.2 will be ok

google/apiclient mostly unused

jquery-form/form unknown

jquery/minicart major update, quite different, needs work

jquery/photoswipe major update, quite different, needs work

kaltura/api-client-library major update, needs work

zendframework/zend-json (dependency?)
