Description

Say I find a nice/useful forum post and I want to email it to someone, it is very long for no (apparent) good reason.

In the "last forum posts" module, the URL is like this: (which is OK)

http://doc.tikiwiki.org/tiki-view_forum_thread.php?forumId=1&comments_parentId=438

But if I find that same link from here:

http://doc.tikiwiki.org/tiki-view_forum.php?forumId=1

It is:

http://doc.tikiwiki.org/tiki-view_forum_thread.php?comments_parentId=438&topics_threshold=0&topics_offset=0&topics_sort_mode=commentDate_desc&topics_find=&forumId=1

Solution

fixed in 1.9.8
