Description
Using 1.9.cvs from 9th july 2007.

HEre:
http://www.moviments.net/drecerca/tiki-list_file_gallery.php?galleryId=4

When interfqce is in catalan, after uploading a file as registered user (or admin) to a file gallery, a blank page is shown (if not admin user), or this marty error if admin user:

Fatal error: Smarty error: [in tiki-list_file_gallery.tpl line 43]: syntax error: invalid attribute name: 'galeria' title='Fes' (Smarty_Compiler.class.php, line 1547) in /home/httpd/tiki19/lib/smarty/libs/Smarty.class.php on line 1095

However, if interface is set to Spanish or English, for instance, everything works ok.

I've clenaed the cache also, just in case.

Looks like a bug related to tpl and catalan language.php???

Solution
seems fixed, even if the problem is another one nowadays (related to this one?):
listing file gallery contents broken in Catalan Language since 1.9.8beta???
