Description
Administration home does look really ugly with hidden disabled sections now

Solution
Now using gray-out icons

I too think, that 1.9 final should look slick. If the implementation of sorting the icons correctly takes time(I talked with mdavey about that), I think it would be better to just disable the feature until it is made. The shaded icons are pretty good to distinguish now, should suffice.

I agree: "The shaded icons are pretty good to distinguish now, should suffice"
