Description

Using 1.10cvs from the last week of October'07.

Multiple assignment of users to a group is not working. Log shows as if those users were effectively assigned to group Editors (in my case), but after that, when I refresh the list of users, those users are still only belonging to registered group, and not Editors.

However, if I assign one by one, through the key icon, they are well set to the Editors group.

<http://moviments.net/intercanvisarxius/>

(this is the same site as <http://intercanvis.net> but for testing, using latest 1.10 cvs code)
