Description

"And from version 5.6 onwards, HAWHAW supports special output for the Lynx text browser. This "archaic" browser is still used today, often by handicaped people with screen readers and other special equipment. HAWHAW's Lynx support allows to create barrierfree applications, which validate Bobby-AAA-approved out of the box and additionally are accessible from each telephone by means of HAWHAW's VoiceXML support."

<http://www.hawhaw.de/>

Todo: add the powered by HAWHAW logo in the tiki-bot_bar.tpl when tiki-mobile is activated.

Solution

Done in BRANCH-1-9 Will be in 1.9.1
