Rating

Description

Instead of this:

×

*[tiki-view_tracker_item.php?itemId=909|Integrating fotonotes or wikigraphe or DOM Image annotation to the Image gallery]*

I should be able to indicate something like:

×

*{bug909}

and have the nice link generated. And if the title of the bug changes, I am OK. Having some more info
about the bug in a mouse over would be a nice bonus!

Having a drop down menu or bug picker would be sweet too!

Maybe even some backlinks detection!

You can see an nice example here that even has a bug icon
http://winscp.net/eng/docs/history

Solution
I have something work in view mode, but breaks in edit mode:
line_break_in_plugin_edit_icon_is_breaking_some_plugins

Importance
9 high

Demonstrate Bug
Please demonstrate your bug on show2.tikiwiki.org

Version: trunk
