**Description**
This will make upgrades easier as people won't have to worry about overwriting their enhancements, multilingual categories need translations and doing by FTP is not fun.

**Related:**
tiki-view_tracker_item.php?itemId=485 -> This is suboptimal

Support.mozilla.com has need for this as well.
https://bugzilla.mozilla.org/show_bug.cgi?id=488728
In 3.0, language/*/custom.php can be managed by the web interface.

Next step is to have this in a wiki page

Solution
i18n.tiki.org (Tiki6) is an example of web-based in-context translations.
