Description

References to the external\_link.gif image don't work in articles when in mobile mode, and TW is installed in a subdirectory. The reference points to /img/icons/external\_link.gif instead.

Example: [http://www.vic-fontaine.com/forum/tiki-read\\_article.php?mode=mobile&articleId=1](http://www.vic-fontaine.com/forum/tiki-read_article.php?mode=mobile&articleId=1)

Test user/password: smarty

Solution

Starting in Tiki7, Mobile support is via jQuery Mobile and this supports pretty much everything the regular site does.
