Description

When a user has the permission "tiki_p_take_quiz", but not "tiki_p_view_quiz_stats", he won't see any quizzes. This is because of the following selection in tikilib.php:

```
function list_quizzes($offset, $maxRecords, $sort_mode, $find) {
```

```
....
```

```
$add=$this->user_has_perm_on_object($user, $res'quizId', 'quiz', array('tiki_p_take_quiz',  
'tiki_p_view_quiz_stats'));
```

```
....
```

A user should be able to list (and thus take) quizzes without having the permission to view the stats.

Solution

Modify the code to:

```
function list_quizzes($offset, $maxRecords, $sort_mode, $find) {
```

```
....
```

```
$add=$this->user_has_perm_on_object($user, $res'quizId', 'quiz', array('tiki_p_take_quiz'));
```

```
....
```

pkdille 2009-03-10 : You already fixed this bug in r13315 on 2008-06-22 16:14:47 (please, next time, close the ticket too 😊)
