### Description

On the Admin: Freetags page, the "Number of Tags to show in Cloud:" field controls the number of tags to display in the tag cloud (such as on the tiki-browse\_freetags page).

I would like a way to tell Tiki to show all the tags.

For example, I would like to enter Number of Tags to show in Cloud = 0 to have Tiki show all tags.

### Solution

Enable the option of 0 = all tags.
