Description
    Since I upgraded from 1.9.11 to 2.0 I first lost the menu, then after change the theme to simple that gets menu back now I cannot login anymore , neither with admin user or normal user. Tell me if you need further info.

    Mine website is www.magowiz.net

Solution
    The problem seems to be fixed. The author didn't give me any news seens october. I close this ticket. Feel free to reopen if this problem still occurs.

.... As I can see your site still lives... I guess you found a solution for this problem.... what did you do ? Is there something that has to be done in code to avoid such problems ?
