Description

An error occured in a database query!

Context:

File tiki-download_file.php

Url tiki-download_file.php?fileId=32

Query:

```
insert into `tiki_users_score` (`user`, `event_id`, `expire`) values (?, ?, ?)
```

Values:

```
0      eric.auger
```

```
1      fgallery_is_downloaded_guillaume.samson:32
```

```
2      1224399721
```

Message:

Duplicate entry 'eric.auger-fgallery_is_downloaded_guillaume.samson:' for key 1

Built query was probably:

```
insert into `tiki_users_score` (`user`, `event_id`, `expire`) values
```

```
('eric.auger', 'fgallery_is_downloaded_guillaume.samson:32',
```

```
'1224399721')
```

Solution

Fixed in 3.0

Workaround: turn off score

Or you can backport the 3.0 fix to your 2.x installation (sorry!)

Importance

7
