Description
    Mouseover plugin is cool

    Some more stuff to make it cooler:

    1. Now, it sticky or not. Should be possible to set a number of seconds to stay open. It should stay open as long as my cursor is over the zone.
    2. If contained text is too long, it overlaps to the bottom (good), but background should extend automatically.
    3. If body empty, don't make clickable (people mouseover and see nothing)
