Description
When I am using the calendar on mouseover the month the year changes colour. The normal colour of the month seems to be a red rather than the standard white and so cannot be seen against the blue background. You can see this at my site www.granthamlions.org.uk. Thanks

Solution
Closing as this is a duplicate of bug 2430

I've looked on your website, and I can't really see the problem. Is it already fixed?
