Plugins: change the defaults for a site, without changing the code

Status
Open

Subject
Plugins: change the defaults for a site, without changing the code

Version
4.x

Category
- Feature request

Feature
Wiki Plugin (extends basic syntax)

Resolution status
New

Rating
(0)

Description
You can do this now with a plugin alias but you need to change the name. Not cool.

Goal:
to be able to centrally, without changing the code, overriding the defaults for certain plugins.

Ex.: for my site, I want sticky=y for pluginmouseover

Importance
