Description
New users are linking to:

tiki-assignuser.php?assign_user=

It should be:

tiki-user_information.php?view_user=

for users that don't have tiki_p_admin_users

As per Tiki23 the issue is still valid.
At dev.tiki.org there is a since_last_visit_new module visible once you've logged.
The 4th tab display the "new" registered users as link even admin is redirected on click to an error page:
You do not have the permission that is needed to use this feature: tiki_p_admin_users, tiki_p_subscribe_groups

Solution as described in the ticket, use "tiki-user_information.php?view_user="
If a user doesn't have the right to see the user information they should be no link (just plain text)
