Rating

★★★★★ (0) ?

Description

When Comment Into Forum is activated, pages of whatever language will be commented into the same forum.

This violates the rule according to which you should never see involuntarily the languages you don't understand, which display is pollution for you.

This will compell you to browse through numerous languages you are not interested in in order to find those you can read.

Solution

Create a language category as you create the thread by Commenting Into Forum.

Priority

25

Demonstrate Bug (Tiki 19+)

Please demonstrate your bug on show2.tiki.org
