Description

UserPages should be off by default, and activated per relevant profile.

Syntax should become:

```
User:XYZ
```

instead of

```
((UserPageXYZ))
```

Done in new installs of Tiki4 but there is no migration script

When User pages are activated, they should be much more obvious for users. (ex.: in MyTiki)

Same thing for User Trackers

Importance

6

Easy to solve?

8

Priority

48

Demonstrate Bug (Tiki 19+)

Please demonstrate your bug on show2.tiki.org
