Edit CSS creates 0-byte file | Tiki Wiki CMS Groupware :: Development

Edit CSS creates 0-byte file

Status

● Open

Subject

Edit CSS creates 0-byte file

Version

3.x
4.x

Category

- Regression

Feature

Theme: Look & feel, Styles, CSS, Theme Control Center

Lastmod by

Gary Cunningham-Lee

Rating

★★★★★ (0) ?

Description

Editing by admin saved the file intact, but the file wasn't renamed. Editing by a registered user created a 0-byte file (also not renamed with -username added). I checked in a Tiki 3.2, which has the same problem.
