Description

Sometimes we need a checkbox field in a tracker to be mandatory. Like:

[] I accept the terms and conditions.
or

[] I agree with the three rules of tw.o dev community.

This cannot be accomplished yet because the checkbox can be left empty, even if the field was marked as mandatory, and the tracker item is inserted (without that box checked).

Solution

Fixed in current branches (9.x, 11.x, 12.x)
