### Description

usability: allow to show the form to post new comments to tracker items below the item.

Many new users to tiki sites, in barter networks (such as <http://intercanvis.net> ) they don't know how to contact the person who added the offer or demand just from the screen where they are seeing the item.

(for sure, captach should be shown when allowing anons to post comments to tracker items)

### Solution

Coded in trunk, so it will be available in 13.x, and this can be easily backported to 12.x once 12.0 is out....

### Importance

6

Or just put the whole comments area below the tracker, like on many other trackers.
