RSS feeds do not take user name and password into account | Tiki Wiki CMS Groupware :: Development

**RSS feeds do not take user name and password into account**

Status
● Open

Subject
RSS feeds do not take user name and password into account

Version
4.x

Category
- Feature request

Description
If the access to the various pages (and, presumably) the other parts of the system is controlled by passwords, RSS feeds would be more useful if they contained the same items the users will see when they log in.

Currently, RSS feeds only contain pages viewable for anonymous users.
