Description

We have a registered user X with right tiki_p_modify_tracker_items.

X tries to update a field using the tracker wiki plugin, and fails.

"You do not have permission to modify an item"

Please review my correction proposal. I am rather new with both php and TW.

Solution

My guess is that the following part of the wikiplugin_tracker.php shall be replaced.

TW5.0beta1 code

```
if (!(($perms['tiki_p_modify_tracker_items'] == 'y' and $item_info['status'] != 'p' and
$item_info['status'] != 'c') || ($perms['tiki_p_modify_tracker_items_pending'] == 'y' and
$item_info['status'] == 'p') || ($perms['tiki_p_modify_tracker_items_closed'] == 'y' and
$item_info['status'] == 'c')) { if ($tracker['writerGroupCanModify'] == 'y' &&
in_array($trklib->get_item_group_creator($trackerId, $itemId),
$tikilib->get_user_groups($user))) { global $group; $smarty->assign_by_ref('ours', $group); }
else return '<b>'.tra("You do not have permission to modify an item").'</b>'; }
```

My suggested replacement is

proposed correction

```
if (!($perms['tiki_p_modify_tracker_items'] == 'y' and $item_info['status'] != 'p' and
$item_info['status'] != 'c') || ($perms['tiki_p_modify_tracker_items_pending'] == 'y' and
$item_info['status'] == 'p') || ($perms['tiki_p_modify_tracker_items_closed'] == 'y' and
$item_info['status'] == 'c') || ($tracker['writerGroupCanModify'] == 'y' &&
in_array($trklib->get_item_group_creator($trackerId, $itemId),
$tkilib->get_user_groups($user))) ) { return '<b>.tra("You do not have permission to modify an
item").'</b>'; } //else { // global $group; // $smarty->assign_by_ref('ours', $group); //}
```

could not reproduce this in 6.1, closing

Comments

Gergely 13 Apr 10 23:44 GMT-0000

The proposed change list is not enough to resolve this issue.

What are those

```
$smarty->assign_by_ref('tiki_p_admin_trackers', $perms['tiki_p_admin_trackers']);
```

lines in there?

Gergely 14 Apr 10 20:59 GMT-0000

This line is suspicious: `$smarty->assign_by_ref('tiki_p_admin_trackers', $tiki_p_admin_trackers);`

Shouldn't it be

```
$smarty->assign_by_ref('tiki_p_admin_trackers', $perms['tiki_p_admin_trackers']);
```

instead?

I got a case when the former is 'n' and the latter is 'y'. This observation does not solve this issue, unfortunately.

Gergely 30 Apr 10 23:40 GMT-0000

In another case
the tracker wikiplugin does not forward \$tiki_p_attach_trackers to tracker_item_field_input.tpl
causing a Permisson Denied
