Rating

★★★★★ (0) ?

Description

Any dynamic list or other drop-down list will not get its default value, when modifying the item, or when it gets prefilled (or when autosave value is available).

Solution

This is my suggestion

add this to wikiplugin_tracker.php, line ~850, to the end of the

```
if (!empty($f['value'])) { // if it has an original or a suggested value, then set it as default value
    $flds['data'][$i]['defaultvalue'] = $f['value']; }
```

Hi!

Still relevant?

Is so, can you commit?

Thanks!
