Subject
Links in external RSS feed are now empty

Description
I have an external RSS feed displayed in a module. In 4.x the links contained the correct HREF values and the module worked nicely. In 5.x (trunk as of 4/19/2010) the HREF value is "".

The feed used is http://alphasoftware.blogspot.com/feeds/posts/default

The "Display Feed" page has the same empty HREF strings as the displayed module containing the feed.

Solution
Commit 26738 should fix it

sylvie
