Description
"Lead, follow or get out of the way" is a common saying.

However, there are some subtleties.

- Lead implies "I agree and will put my energy where my mouth is."
- Follow implies "I am ok with it but I won't lead"
- Get out of the way implies "I don't agree but I won't object (perhaps it doesn't affect me or I will just accept or leave)

There is also:

- Go along (I am not thrilled by the proposal, but I have nothing better for which I will offer leadership)
- Block this is just bad, and I will actively oppose.

In PluginProposal currently, "undecided" implies, "I'll think about it more and I'll change my vote later". Whereas people that are OK with any proposal are not really counted properly. This will be useful to know if we have enough eyeballs to go ahead.

3 for, 1 opposed is not the same with 0 or 10 I am OK with any
