Description
Calendar Popup Misplaced

5.0 RC1 r27394, still applies in trunk r28611.

CSS errors in the popups in weekly and daily view.

- first time an item is clicked, the popup shoots to the top of the page
- 2nd and subsequent times it appears in a reasonable place
- produces a question-mark mouse pointer
- apparently independent of theme
- Monthly view behaves ok and no "?" pointer
