### Description

1) Child links are "usually" (not always) configured to point to a bad Url.

Instead of taking you to :

[http://mi.solcentral.org/tiki-list\\_file\\_gallery.php?galleryId=5](http://mi.solcentral.org/tiki-list_file_gallery.php?galleryId=5)

it will take you to

<http://mi.solcentral.org/Textos%20Codificados>

and Sefurls (Search engine friendly url) is OFF

You can see if for yourself in [http://mi.solcentral.org/tiki-list\\_file\\_gallery.php?galleryId=2](http://mi.solcentral.org/tiki-list_file_gallery.php?galleryId=2)

I have changed Theme to see if its a Theme things and the problem persists.

The problem does not arise accessing with IE 7.0 since the Tree Control is not showed up at all (don't know if this is also an error really, if you know tell me...).

2) Icons change. Instead of showing one type of icon in the tree structure, it shows two types.
