Description

1) Column colapsing is not remerbered whenever I change from one page to another.

2) And also have had some problems with their navigators saying "cookies must be on" when they are on, no matter wich browser is being used. This happends as they attemp to login. After many tries the user can login.

Using:

Tiki 6.1 fresh code install, on past 6.0 db updated to 6.1.
