Description
As of 7.x 34239, the structure navigation header on pages belonging to structures has disappeared on my jqui theme.

It's *possible* but unlikely that this is a result of a module adjustment.

I need this fixed soonest as the usability of my documentation wiki is severely impacted.

See, for example http://screencast.com/t/HVO7JiOpp3e1

Solution
Bug introduced by commit 34101 and fixed by 34250
