Description

Uploaded a new version of a file.

Clicked "verify" option

Was prompted to confirm.

After clicking confirm, got the following error:

System error.

The following error message was returned:

Unknown column 'fileId' in 'where clause'

The query was:

```
SELECT * FROM `tiki_file_galleries` WHERE 1=1 AND `fileId` = ?
```

Values:

1.1

The built query was likely:

```
SELECT * FROM `tiki_file_galleries` WHERE 1=1 AND `fileId` = '1'
```

Solution

In lib\filegals\filegallib.php

In function validate_draft

Note line:

```
$filesTable = $this->table('tiki_file_galleries');
```

This should be:

```
$filesTable = $this->table('tiki_files');
```
