Description

Ugraded this site to 7.1:

http://alaindesilets.org/MyPublicSite/tiki-view_blog.php?blogId=1

and now, I can't upload files to the Files gallery.

Here is what I do:

- tiki-upload_file.php
- click on Browse button
- Navigate my disk and select an image file
- Click UPload Files button
- Nothing happens.

Workaround

Actually, the problem went away after clearing the browser and Tiki caches.
