Description

Feature request: Add an etherpad module to Tiki.

Etherpad allows really real-time document collaboration for groups of users.

It's free and open source, with parts under Apache License 2.0, BSD, LGPL 2.1 and GPL 2.0 licenses.

On August 14 2011 the people at etherpad have released a jQuery plugin and a PHP class for easy injection of pads into web pages.

This is a test (Etherpad is nice though! 🌐)

It is quite nice, yes. Any plans to integrate it?
