Description

I was logged in as admin and tried to post a comment to an article. I typed in a title and comment then pressed "Post as Anonymous." The page that comes up has no css, and at the bottom it says:

Fatal error: Call to a member function generate() on a non-object in /templates_c/en
%%C6
C6E^C6EF0FD6%%antibot.tpl.php on line 28.

The comment goes through fine.
