Subject
Comments dont show up when comments_archive is set

Category
- Error

Feature
Comment

Resolution status
New

Rating
(0)

Description
\db\tiki.sql 548:
CREATE TABLE `tiki_comments` ... `archived` char(1) default NULL, ..
\lib\comments\commentslib.php 1337:
if ($prefs'comments_archive' == 'y' && $tiki_p_admin_comments != 'y') {
$conditions'archived' = 'n';
}
unarchived comments have `archived` = NULL, not 'N'

Solution
CREATE TABLE `tiki_comments` ... `archived` char(1) NOT NULL default 'n', ...
ALTER TABLE `tiki_comments` ... `archived` char(1) NOT NULL default 'n', ...
UPDATE tiki_comments SET `archived` = 'n' WHERE `archived` <> 'y'

Comments don't show because the field "approved" is set to "n" by tikiwiki when the user is different from admin

Renato González Mello 27 Jan 13 04:12 GMT-0000

I tried to alter default value for the column to 'n', with no results. The solution comes in the permissions: you have to allow admin comments in global permissions (when assigning group permissions), while disabling it when stating category permissions (otherwise, every user will be approved to delete everybodie's comments).
