Description
The following settings do not get saved when you create a new sheet or configure an already created sheet.

Class Name:
Header Rows:
Footer Rows:
Wiki Parse Values:

Solution
This might be working as expected in recent Tiki versions (12.x, 15.x, 16.x). Can you please retest?
Thanks!

In latest 9.x and 12.x?

Lusserall 04 Nov 13 00:05 GMT-0000
This is almost from 2 years ago and wasn’t working well for me so stopped using it.
Found "Wiki Parse Values:" and it looks like its working the selection box keeps selected after saving in tiki 9.7.
No idea where to find the other settings.
