Description

In Directory, when you go to validate sites and check sites for deleting, the sites were not deleted after submitting the form.

I'm not sure, if the bug is in tiki-directory_validate.tpl or in it's php or lib files.

I confirm this issue with Tiki 1.9.5.

Bernard Sfez / Tiki Specialist 30 Sep 21 14:01 GMT-0000

As per Tiki23 tiki-directory_validate.php doesn't exist anymore and I couldn't find a way to select/delete several entry in a Tiki directory.

Please note that this feature has been neglected since several years as directory or url collections (portals) saw a lost of interest.
