Description
Use this link to see error:

https://dev.tiki.org/tiki-view_tracker.php?trackerId=5&status=op&sort_mode=f_41_desc&filterfield=47&filtervalue[86]=&filtervalue[26]=&filtervalue[56]=Accepted&filtervalue[54]=&filtervalue[27]=&filtervalue[90]=&filtervalue[28]=&filtervalue[48]=&filtervalue[55]=&filtervalue[91]=&filter=Filter

Tracker breaks and spills code onto the page.

This happened when I attempted to filter for only bugs in version 9x.

Can't reproduce. Maybe fixed in 10.x?
