Description
    How to reproduce:
    1. Allow Group Homepage
    2. Set homepage for anonymous group: agr_home
    3. Set homepage for registered group: rgr_home
    4. make default page agr_home page
    5. login -> you ll be redirected to rgr_gome -> thats ok
    6. logout -> you ll be redirected to http://yoursitename.com/agr_home (note: not
    index.php?page=agr_home)

Solution
    Fix for this change line 21 at tiki-logout.php:
    line 21:
    -- $out_page = $userlib->get_group_home('Anonymous');

    ++ $out_page = "tiki-index.php?page=".$userlib->get_group_home('Anonymous');

    I dont know if hardcoding "tiki-index.php?page=" is correct, but this fix that problem.
    $userlib->get_group_home('Anonymous') — returns just agr_home.
