Description

Review all mods and decide what should be added to BRANCH-1-10

<http://mods.tikiwiki.org/>

Please see: [To mods or not to mods](#)

criteria:

- license
- size
- security
- potential popularity of feature
- non-reliance on 3rd party code

Plugins that will now be in core (and removed from mods):

- include ok in 2.0, should be removed from mods
- **perm**
- group (ok) should be removed from mods: wikiplugin\_group.php
- **wikiplugin\_files.php**
- wikiplugin\_listpages.php ok?, just remove from mods?
- **wikiplugin\_mouseover.php needs to be fixed, then moved**
- wikiplugin\_trackeritemfield.php done in 2.0

Reason:

- Great plugins
- Mods installer doesn't work for everyone and there is no documentation for manual install
