**Description**
BigBlueButton fails to load and exits at this url:
/tiki-ajax_services.php?controller=bigbluebutton&action=join

I have traced it to the following function in /lib/core/Services/Broker.php:

```php
private function attemptProcess($controller, $action, $request) {
    if ($controller" class="wiki wikinew text-danger tips isset">$this->controllerMap$controller { $controllerClass = $this->controllerMap$controller; $handler = new $controllerClass; $method = 'action_' . $action;

    if (method_exists($handler, $method)) {
        if (method_exists($handler, 'setUp')) {
            $handler->setUp();
        }
        return $handler->$method($request);```
the code stops functioning at this line of code:

```
return $handler->{$method}($request);
```

Comments

robert4dejure 31 Aug 13 20:21 GMT-0000

When I tried to reproduce the problem there was none. I reinstalled tiki 11.0 and now this feature works.
