Description
http://suite.tiki.org/Tiki+Suite is a perspective of http://tiki.org/

In mobile mode of http://suite.tiki.org/, we get "Too many redirects" or "This webpage has a redirect loop". You can also get this by going into mobile mode from suite.tiki.org

Turning off mobile perspective for that perspective? (Seems risky)

That worked for now so no urgency to fix, but a real solution would be nice for 13 or 14

Thanks!
