Description
    Hi Devs, I need one show.t.o instance to show all (or most) of the bugs, which I find for Tiki pre-13.

    I have a few smaller websites in production with pre-13 trunk to have a productive testing environment.

    The bugs will be reported individually and refer mainly to this show instance instead of individual instances, where it makes sense (at least in my mind).

    In case of questions or comments to this tracker item / show instances / bugs, you may write to torsten at tiki.org

Importance
    10 high

Priority
    50

Demonstrate Bug (Tiki 19+)
    This bug has been demonstrated on show2.tiki.org

Demonstrate Bug (older Tiki versions)
    Please demonstrate your bug on show.tikiwiki.org

    Version: 18.x ▼
