Description
> Rating options for forum threads do not display options to choose from any more in 13.x. They were working in 12.x

Hi gezza, could you test the changes after these commits (since you changed the status from open to pending)?

Because I couldn't "svn up" the show instance, so I coulnd't test it yet...

gezza 28 May 14 08:41 GMT-0000

hi xavi!

I tested it on my local tiki13 before changing the status, for me it looks fine
I dont use this feature much that is why i thought you should also take a look

i leave it on pending until you can test too

Xavier de Pedro 28 May 14 08:59 GMT-0000

thanks gezza. I'll do my best to test it when I get a chance to get an updated testing environment (this issue in dev.t.o regardig show instance needs to be fixed too)
