Description

Commit 50912, which removes the use of jQuery cluetip, caused the mouseover option to no longer work for PluginImg. Previously, using this option the user could mouse over a thumbnail of an image and the full size image would pop up. below is an example of the usage (which won't work on this site until this bug gets fixed):

This syntax:

```
{img fileId="786" thumb="mouseover"}
```

Update

After r51821 the above works, but "mousesticky" still does not as shown below (should pop up and stay up after mouseover):

This syntax:

```
{img fileId="786" thumb="mousesticky"}
```

Produces this:

Solution

Hi Lindon,

I had fixed popover issue.

Please refer the commit id 51821.

Please check and advice.

Thanks.

Hi Manivannans,

This fixes "mouseover" (thank you!) but "mouseticky" still doesn't work - see update to description above.

Regards,

lindon
