Description

13.x: After a remote file is uploaded to a file gal, no file Id is shown any more since 13.x

Reproduced in doc.t.o.

- Edit a page
- click on the icon at the toolbar: 
- place a remote url to a file. For instance: <http://www.r-project.org/hpgraphic.png>
Once uploaded, you see no fileId any more. Upto 12.x, you saw the filename with a link to the file id number on hover, etc.
